

Recommendation Letter For Rob Han

To Whom It May Concern,

I had the pleasure co-founding a crowdfunding agency with Rob and we worked closely together as business partners on the many aspects of running the company.

Rob is genuinely one of the most talented brand marketers that I have ever had the pleasure of working with. I have worked at multiple Fortune 500 companies in a brand management capacity and have found few people who can see the world the way that Rob does. He has a genius for taking complex marketing problems and refining them into simple and elegant messaging.

Although we no longer work together on a regular basis, if I ever have a marketing or design challenge I need to think through, Rob is still the first call that I make. While my mind is very linear and literal, Rob's mind is very spatial and creative. He always put in the effort to understand where I was coming from and worked hard to make our partnership strong.

Rob really cares about the strength of relationships he has with people and the quality of work he delivers. He is motivated to make the world a better place and I believe that he is.

I know that whoever is lucky enough to have Rob's mind working for them will end up doing great things. I am available at any time for further questions.

Best regards,
